

Building Inclusive Healthcare Systems

Join an International Seminar on the Future of Healthcare and Elder Care

Date: Wednesday 1 February 2017

Time: 14.00 - 16.00 hours

Location: ZonMW

Laan van Nieuw Oost-Indië 334
2593 CE Den Haag

Join experts from Sweden and The Netherlands to discuss how to build healthcare systems that work for all individuals, now and in the future. The seminar will explore how to ensure the highest quality of life and care for all, including a growing global population of seniors. Participants are encouraged to share their vision of the future of healthcare, and learn from others who have transformed their care organizations to focus on quality of life and quality of care. The seminar will be conducted in English and is free of charge.
